

The Trust believes that education plays an important part within the Project and encourages school children to become involved in nature conservation by using Eilean Bàn as an example.

School visits to the island are actively encouraged. We have already had a number of visits from primary schools from within Skye and Lochalsh. As well as encouraging visits to Eilean Bàn, we have produced a virtual island that includes many questions about the island. Children answer the questions using a resource box.

If you wish to know any more details about what the Trust can provide, or wish to arrange a visit to your School by a member of the Trust, [please contact us](#) .
